

Emergen Studio — Creative Website Strategy & Layout

This document outlines the complete design direction, structure, UI style, animation strategy, and conversion-focused layout for the Emergen Studio website. The goal is to create a premium modern creative growth agency website inspired by Spotify for Artists, Linear, Stripe, Framer, and modern SaaS interfaces.

1. Website Design Direction

The website should have a premium modern light-themed UI with spacious layouts, rounded cards, smooth gradients, and clean typography.

The interface should feel:

- Modern
- Premium
- Minimal

- Startup-inspired
- Conversion-focused
- Professional yet creative

2. Hero Section Layout

The hero section should instantly communicate authority and creativity.

LEFT SIDE:

- Small “Creative Growth Agency” badge
- Large bold headline
- Supporting brand description
- CTA buttons:
 - Book Free Audit
 - View Our Work

RIGHT SIDE:

- Floating analytics cards
- Video preview module
- Growth metrics
- Bento-grid layout structure

3. Navigation Design

The navigation bar should be minimal and clean with:

- Logo on the left
- Simple menu links
- Gradient CTA button on the right
- Sticky behavior on scroll

4. Service Section

The services area should use clean card-based layouts with soft shadows and subtle hover animations.

Suggested services:

- Content Production
- Social Media Management
- Performance Marketing

- Branding & Design
- Website Development
- Influencer Collaborations

5. Mobile Experience

The website must be fully mobile-first and optimized for Instagram traffic.

Important mobile features:

- Sticky bottom CTA
- WhatsApp floating button
- Spacious typography
- Vertical stacked layout
- Smooth touch interactions

6. Color Palette

Primary Background: #F8F8FA

Card Background: #FFFFFF

Accent Purple: #7C3AED

Accent Blue: #4F46E5

Primary Text: #0F172A

Secondary Text: #6B7280

7. Typography

Recommended fonts:

- Satoshi
- Inter
- General Sans
- Plus Jakarta Sans

Typography should use:

- Large headings
- Minimal paragraph width
- Strong hierarchy
- Clean readability

8. Animation Strategy

Animations should remain subtle and smooth.

Use:

- Fade-in transitions
- Hover elevation
- Soft glow effects
- Floating card motion
- Smooth scrolling

Avoid:

- Heavy parallax
- Flashy transitions
- Excessive motion

9. Conversion Features

Important conversion-focused elements:

- Book Free Audit popup
- WhatsApp integration
- Client testimonials
- Portfolio showcase
- Sticky CTA buttons
- Calendly integration
- Fast loading speed
